Many Community Leaders in Hollywood are fighting the City's attempt to allow big-time developers to build high and wide on the already grid locked major streets you travel on in Hollywood. Developers, politicians, and lobbyists are salivating while plans are made to destroy the heart of the Hollywood we know and love and replace it with a soulless sea of skyscrapers.

In addition to being home to thousands of residents, Hollywood is the main entertainment destination for people in Los Angeles and for tourists from all over the world. However, this hosting burden of being the Entertainment Capitol of the World is immense and no other community in Southern California is equally challenged, except perhaps for Anaheim with its Disneyland venue.

Hollywood's infrastructure is crumbling, and we don't have enough services to support it! We don't have enough resources to respond to the emergency needs of the current population.

Meanwhile, because of the City's spending sprees, we have gutted the emergency response fund! Our lives and the lives of our visiting guests from near and far are threatened!

Will you stand by silent and allow this? Or, will you support Hollywood's community leaders as they launch legal challenges to the life-altering changes that the current Hollywood Community Plan will bring?

Fighting costs money!

Don't stand by while Hollywood is sold to the highest developer bidders. This is your chance to make a difference .

We need your donations! We need them now! Also, if you are willing and able to donate your time and expertise in this fundraising effort, we welcome that, too! You can either visit our website at savehollywood.org or you can send your **tax-deductible** donation to:
